

**Gillian Drew - Licensed Facilitator
of Desire Map workshops.**

I help women create and navigate life changes through practical, fun and insightful workshops, and through kinesiology at my clinic, [Soul Experience](#).

[The Desire Map](#) book changed my approach to life. I'm a person who likes to plan and set goals and I also love the magic of heart-space connection. BUT I tend to get so caught up in the plans in my head I lose connection with my heart. The Desire Map is the tool that helps me to bring the two together, so I can stay on track with my goals AND in touch with who I am.

I became a facilitator of Desire Map events so I can help others use this fantastic tool to experience the life they want to live.

What is The Desire Map?

The Desire Map is a book by Danielle LaPorte that turns goal setting inside out and upside down. Instead of creating another soul-destroying list of things to do, The Desire Map gets you out of your head and back to your heart and what's important to you. And that's what makes all the difference.

Who is The Desire Map for?

The Desire Map is great if you're feeling stuck and need some life direction, or if you want a whole new way to set (and achieve) goals. It's a very simple, practical, and insightful framework that has the flexibility to fit into any lifestyle.
